Software Developer

> *As an IT enthusiast I'm always looking for increase my knowledge in the field of software development,*
> *not focusing on a specific language or technology but trying to develop a mindset capable of adapting in any*
> *environment.*

Tech Skills

Languages

Java SQL Markdown JSON YAML

Concepts

Algorithm Data Structures OOP REST

Databases

MySQL PostgreSQL MongoDB

Frameworks

Spring Spring Boot Hibernate Mockito Log4j OpenAPI

Tools

Maven Git Postman Docker

Platforms

Azure Confluence Kubernetes

Patterns

MVC Dependency Injection Singleton CRUD Data Access Object

Microservices

Api Gateway Spring Cloud Gateway

Naming Server Eureka

Experience

Period : 10/2023-Present

Company : `Iriscube Reply` | Architecture : `Microservices`
Type of project : `Banking` | Working method : `Agile`

```
Tasks :
  - Develop BE
  - Active communication with the FE team
  - Draw up technical documentation
```

Tech&Platforms `Java 17` `Spring&SpringBoot` `REST` `OpenAPI/Swagger` `Maven` `Git` `Mockito` `IntelliJ` `Docker` `MongoDB` `Postman` `Azure` `Confluence`

Period : 11/2022 - 09/2023

Company : `Blue Reply` | Architecture : `Monolithic`
Type of project : `Insurance` | Working method : `Agile`

```
Tasks :
  - Standalone management of the project for six months
  - Develop FE and BE.
  - Analysis and implementation BR,CR, hotfixes.
  - Management of the test/production environment.
  - Technical lead for the migration of the front end framework.
```

Tech&Platforms `Java 8/17` `Vaadin 8/24` `Hibernate/Jpa` `SQL` `Maven` `Git` `Junit` `IntelliJ` `DBeaver` `MySQLServer` `Postman` `Jaspersoft` `Azure`

Personal Projects

[ProjectAlt96](#)
Architecture : `Microservices`
Info : `Web app for manage month expenses, with history and statistics`

Tech&Platforms `Java 17` `Spring&SpringBoot` `REST` `OpenAPI/Swagger` `Maven` `SQL/JPA` `Mockito` `Git` `Angular` `IntelliJ` `VisualStudio Code` `DBeaver` `MySQLServer` `Postman` `Docker` `Github`
